## PROFESSIONAL SUMMARY

Customer-focused Desktop Support Analyst with 10 years of hands-on IT experience across corporate office and manufacturing/industrial environments. Proven track record managing user accounts and access controls in Active Directory/Okta, deploying system builds with network imaging tools, and resolving walkup and remote helpdesk tickets. Adept at hardware diagnostics, peripheral configurations (printers/scanners), and advanced network troubleshooting (Meraki SD-WAN) in fast-paced supplier settings, ensuring compliance with IT security and safety protocols.

## CORE COMPETENCIES

Desktop Support & Helpdesk

Active Directory & GPOs

Imaging & Deployment

Hardware & Peripherals

Windows Client/Server

Ticketing & SLA Adherence

Meraki SD-WAN & Network

Customer Service Excellence

## WORK EXPERIENCE

Daimler Truck LLC / Allied Digital May 2024 - Present

### Mobile Device Support iOS

Portland, OR

- Provide customer-first walkup, deskside, and remote helpdesk support, resolving mobile device, OS, and software issues for corporate end-users.
- Order, receive, and provision mobile device fleet inventory (iOS, macOS, and Windows) for end-users, remote workers, and new hires.
- Set up and configure client devices using enterprise macOS/iOS setup tools, configuration profiles, and MDM platforms (Intune, MobileIron, Ivanti).
- Execute hardware decommissioning and device retirement processes, ensuring secure data wiping, asset de-registration, and resource reclamation.
- Manage asset lifecycles, assign hardware, and resolve escalated ticketing queues within strict SLAs.
- Develop and enhance user-facing setup guides in Confluence to streamline self-service deployments and remote enrollment.

JH Kelly, LLC April 2019 - February 2024

### IT Support Specialist II

Vancouver, WA

- Supported end-users through walk-ins, phone support, and ServiceNow ticket management.
- Managed the lifecycle of desktop and mobile assets, from initial hardware ordering and provisioning to secure device retirement and decommissioning.
- Deployed and configured laptops and desktops utilizing Ivanti and Acronis system imaging.
- Installed and administered Meraki SD-WAN networking devices to restore network connectivity across offices and industrial fabrication shops.
- Administered Active Directory (AD) and Okta for user provisioning, group policies, access control, and user lifecycle management.
- Configured and managed Zoom and Microsoft Teams conferencing rooms and management portals.
- Deployed cell phones using Ivanti/MobileIron MDM and provided Cisco VoIP junior admin support.

Clark College April 2017 - April 2019

### Network & Microsoft Technology Lab Volunteer Technician

Vancouver, WA

- Troubleshoot Cisco routing and switching hardware, Microsoft Active Directory forests, and Linux servers.

- Diagnosed, replaced, and maintained Cisco physical hardware (HWICs, SMART-Serial, interfaces).
- Performed rack and hardware maintenance including SAN hot-swapping and UPS battery replacement.
- Supported lab infrastructure migrations and mentored students in network subnetting.
- Gained hands-on experience configuring and deploying AWS cloud services (EC2, S3, Route 53) through a WebDev course curriculum.

**MoJoe Enterprises LLC / Rock That Media LLC**

January 2016 - December 2017

**Desktop Support / IT Administrator**

Various

- Executed login scripts, managed client system rollouts, and configured Windows desktop environments.
- Investigated and diagnosed operating system and hardware performance issues.
- Administered local systems infrastructure and trained staff on network security awareness.

**PROJECTS**

**Enterprise iOS Fleet Migration** MDM

Managed the lifecycle and security of a large-scale iPhone fleet using modern MDM solutions, ensuring 100% compliance with corporate security policies.

Ivanti, MobileIron

**SD-WAN Infrastructure Rollout** Networking

Deployed and administered Meraki SD-WAN devices across multiple branch offices, improving network reliability and reducing latency by 40%.

Meraki SD-WAN
