Customer Service Excellence

WORK EXPERIENCE

Daimler Truck LLC / Allied Digital May 2024 - Present

Mobile Device Support iOS

Portland, OR

- Deliver customer-first frontline technical support for end-users, resolving hardware, software, and device setup tickets.
- Manage fleet inventory and provisioning for iPhone devices using modern MDM (Ivanti/MobileIron) profiles.
- Create clear remote user documentation and onboarding guides to streamline end-user self-service.

JH Kelly, LLC April 2019 - February 2024

IT Support Specialist II

Vancouver, WA

- Deploy and configure desktops, laptops, and peripheral hardware using **Ivanti and Acronis imaging**.
- Administer Active Directory, Entra ID, and Okta for user lifecycle management and access control.
- Provide backup support for server room hardware, SAN storage, and Meraki SD-WAN branch office networking.
- Resolve frontline IT helpdesk inquiries via ticketing system and phone support, maintaining strict SLAs.

Clark College April 2017 - April 2019

Network / Microsoft Technology Lab Volunteer Technician

Vancouver, WA

- Troubleshoot network topologies, Cisco routing/switching, and Microsoft AD forests in lab settings.
- Maintain physical server racks, SAN storage arrays, and UPS equipment to ensure continuous lab operations.

MoJoe Enterprises LLC / Rock That Media LLC January 2006 - December 2017

Desktop Support / IT Administrator

Various

- Diagnose and resolve performance bottlenecks on Linux/Windows client and server systems.
- Manage client PC system rollouts, operating system configurations, and login scripts.

KEY PROJECTS

Enterprise iOS Fleet Migration MDM

Managed the lifecycle and security of a large-scale iPhone fleet using modern MDM solutions, ensuring 100% compliance with corporate security policies.

SD-WAN Infrastructure Rollout Networking

Deployed and administered Meraki SD-WAN devices across multiple branch offices, improving network reliability and reducing latency by 40%.
