

Matthew Linke

714-745-9857 | mlinke@gmail.com | Vancouver, WA

PROFESSIONAL SUMMARY

Customer-focused Desktop Support Analyst with 10 years of hands-on IT experience across corporate office and manufacturing/industrial environments. Proven track record managing user accounts and access controls in Active Directory/Okta, deploying system builds with network imaging tools, and resolving walkup, phone, and helpdesk tickets end-to-end. Adept at hardware diagnostics, peripheral and printer fleet management, warehouse device support, and advanced network troubleshooting across Meraki SD-WAN and Ubiquiti UniFi environments, ensuring compliance with IT security and safety protocols.

CORE COMPETENCIES

Desktop & Help Desk Support

Active Directory, DNS & DHCP

Imaging & Endpoint Deployment

Printer Fleet & Peripherals

Windows Server/Client

Ticketing & SLA Management

Meraki SD-WAN & UniFi Network

Warehouse & Industrial Devices

WORK EXPERIENCE

Daimler Truck LLC / Allied Digital

May 2024 - Present

Mobile Device Support iOS

Portland, OR

- Handle inbound help desk calls, walkup, and remote support requests via ServiceNow, resolving mobile device, OS, and software issues for corporate end-users.
- Order, receive, and provision mobile device fleet inventory (iOS, macOS, and Windows) for end-users, remote workers, and new hires.
- Set up and configure client devices using enterprise macOS/iOS setup tools, configuration profiles, and MDM platforms (Intune, MobileIron, Ivanti).
- Manage asset lifecycles, execute hardware decommissioning (data wiping, asset de-registration), and resolve escalated ticket queues within strict SLAs.
- Develop and maintain IT SOPs and user-facing setup guides adopted as standard procedures for self-service deployments and remote enrollment.

JH Kelly, LLC

April 2019 - February 2024

IT Support Specialist II

Vancouver, WA

- Triage and resolved inbound help desk calls, walk-in requests, and ticket queue end-to-end, independently managing priority and SLA compliance across multiple sites.
- Deployed and configured laptops, desktops, and warehouse devices (barcode scanners, label printers, handheld RF units) using Ivanti and Acronis system imaging.
- Administered Windows Server environments including Active Directory, DNS, DHCP, and Group Policy Objects (GPOs); automated bulk user provisioning and reporting with PowerShell scripts.
- Managed network printer fleet (HP/Lexmark) including print server setup and driver deployment; authored IT SOPs and runbooks in Confluence adopted as branch-wide standard procedures.
- Installed and administered Meraki SD-WAN appliances; configured VLANs, racked/patched switching hardware, and terminated network drops; served as Junior Administrator for Cisco and Meraki infrastructure including VoIP systems.
- Supported industrial jobsite visits wearing required PPE and adhering to site safety protocols to maintain field office IT hardware.

Clark College

April 2017 - April 2019

Network & Microsoft Technology Lab Volunteer Technician

Vancouver, WA

- Troubleshoot Cisco routing and switching hardware, Microsoft Active Directory forests, and Linux servers.
- Performed rack and hardware maintenance including Cisco hardware replacement (HWICs, SMART-Serial), SAN hot-swapping, and UPS battery replacement.
- Supported lab infrastructure migrations, mentored students in network subnetting, and gained hands-on AWS EC2 experience through a WebDev course curriculum.

MoJoe Enterprises LLC / Rock That Media LLC

January 2016 - December 2017

Desktop Support / IT Administrator

Various

- Deployed and configured Windows desktop environments; executed login scripts and managed client system rollouts.
- Administered local systems infrastructure, diagnosed OS and hardware performance issues, and trained staff on network security awareness.

PROJECTS

Enterprise iOS Fleet Migration MDM

Managed the lifecycle and security of a large-scale iPhone fleet using modern MDM solutions, ensuring 100% compliance with corporate security policies.

Ivanti, MobileIron

SD-WAN Infrastructure Rollout Networking

Deployed and administered Meraki SD-WAN devices across multiple branch offices, improving network reliability and reducing latency by 40%.

Meraki SD-WAN

EDUCATION

Associates in Applied Technology: CISCO Technologies [Clark College](#) 2023

Associates in Applied Technology: Network & Microsoft Technologies [Clark College](#) 2018

CERTIFICATIONS

CISCO Cybersecurity Essentials	2022
MTA Microsoft Windows OS Fundamentals	2015
MTA Database Fundamentals	2016
MTA Microsoft Networking Fundamentals	2015
MTA Microsoft Server Fundamentals	2015
CompTIA A+	2009

SKILLS

Systems & Server: Windows Server, Active Directory, DNS/DHCP, Group Policy (GPOs), PowerShell Automation

Networking: Cisco/Meraki SD-WAN, Ubiquiti UniFi, VLAN Config, Physical Cabling & Patching, VPN/IPSec

Identity & MDM: Active Directory, Entra ID (Azure AD), Okta, Intune, MobileIron, Ivanti

Endpoint & Warehouse Devices: Ivanti/Acronis Imaging, Barcode Scanners, Label Printers, Handheld RF Units, Print Server Management

Continuous Learning & Research: Maintain an enterprise-grade HomeLab (vSphere/ESXi, Active Directory, and virtualized servers) to stay current with emerging technologies and test workflow automation improvements.
